So Vincent Brothers left his credit card with his brother Melvin in Ohio to use; sounds like he had his brother make some phone calls from his cell phone too. Nice try Vincent.

If he was like the rest of us, one credit card is not enough, how many do you have Sherlock?

Anon, what the hell are you saying? His dumbass brother has already admitted to using the credit card in Ohio. You are a moron.

Listen genius, you never answered the questions , how many cc cards do you carry? The only difference between you and Brothers is race and you are stingier with your card than he was.

Thanks Vince, that is very clear. You are a genius, you try convict and probably will administer the needle on this guy, ans all from your living room.

Anon, please proof read your posts before you send them. The last one is all messed up. You can still edit it so others won't know you are a dumbass....

I'm confused about the fourteenth call. Was it from Bakersfield or from Ohio? Is it just me, or is this written stating both scenarios?

The post states they pulled records from July 2~7 th,then the first phone call is dated July 1st??? I am sure they is a simple explanation for this discrepancy– but is this an indicator of the competency of the investigator, the D.A. ?
